MAAA Life Membership

At the MAAA Council Conference in May this year, Aeromodellers NSW nominated three outstanding individuals from the ranks of aeromodelling in our State to be awarded Life Membership of MAAA.

As you may be aware, there was a Presentation Dinner held in Sydney on Friday 30th October where this award was presented to:

- **Val Vickers**, a member of **Aeromodellers NSW**.
- **Joan McIntyre**, a member of **Control Line Aircraft Society**.
- **Ivor F** (posthumously) a member of the **NSW Free Flight Society**.

We are proud to promote all forms of aeromodelling in NSW.

Diary Notes

Next AEROMODELLERS NSW Meeting

Friday 13th November 2015, 8:00pm at **Dooley's Waterview Club, Cnr of Clyde Street and Silverwater Road, Silverwater.**

Following AEROMODELLERS NSW Meeting (**Note change of date**)

Saturday 12th December 2015, 12:00md at Dooley's Waterview Club, Cnr of Clyde Street and Silverwater Road, Silverwater.

Newsletter #381 (Dec 2015) deadline for submissions:

Tuesday 17th November 2015.

Business Arising from Correspondence:

M1.1 A presentation Dinner will be held on the 30th October for the NSW recipients of Life Memberships of MAAA - Val Vickers (ANSW), Joan McIntyre (CLAS), and Ivor F (NSWFFS). There will also be recognition of the award of the OAM to Mike Close. Details of the event are available from the Secretary.

M1.4 MAAA Advise that they have closed out the incident report from the Helifest 2014.

M1.5 MAAA Executive Minutes – Read to the meeting – excerpt follows.

06.17.4 Unification NSW – (Original item# 05.17.5)

The Administrator for the NSW unification, MAAA Vice President, reported that so far he had held constructive meetings with CLAS and NSWFFS. The Administrator is scheduled to hold a similar meeting with ANSW on 14 August.

July: *The MAAA Vice President (NSW Administrator) provided an update on actions so far. He has now met with all three State Associations and members present at their general meetings. The last meeting was with ANSW where 60 members were in attendance to hear and consider the unification plan.*

A full report will be provided at the midyear Finance and Presidents meeting and a motion will be presented for acceptance to move forward with the planned actions. The unification under a fourth Association as the Ordinary Member for NSW will be presented to the 2016 Council Conference by the Administrator. An information document will be prepared in the meantime and distributed to all members in NSW.

The NSW Administrator met with MatthewsFolbigg lawyers to make arrangements for a new Association to be formed and registered in NSW.

It was reported that CLAS has indicated that they will become a SIG and Free Flight will remain a club within a united NSW.

- C2.3 The Gunnedah club have provided a letter of support for Aeromodellers NSW in the protracted situation regarding the NSW Unification. Details available from the Secretary.

Motion: that the inward correspondence is accepted and the outward correspondence be adopted.

Moved WPMAC **Seconded:** WRCS **Carried**

Reports

Treasurer **Steve Norrie**

The Treasurer presented his report and the accounts for payment and these will be circulated by Bulletin in the normal manner.

Motion: That the accounts presented be approved for payment.

Moved CVRCMAS **Seconded:** SNMAC **Carried**

President **Bob Carpenter**

Your Executive is still awaiting the promised formal precis supporting the verbal presentation given by MAAA Vice President Carl Bizon at the Aeromodellers NSW August 2015 meeting. Until we receive this we have no further authoritative information to provide to NSW Clubs or individual members on what MAAA is planning to do regarding membership from within NSW after the 1st July 2016 other than what we were advised at the presentation.

You will see in these Minutes that motions have been passed that will lead to the calling of an Extraordinary Special meeting to consider changing key clauses within our Constitution. I strongly recommend that, if possible, you have representatives from your Club at both the November and December Monthly Business Meetings.

Registrar **Dave Lewis**

Membership approaching 2100 which is ahead of the normal numbers.

Mailing of Silver Wings is progressing.

If clubs need more stocks of the Silver Wings please contact Dave Lewis. The Silver Wings are awarded at Club Level and may be issued as soon as the test is passed.

Chief Flying Instructor **Bob Carpenter**

The Instructors course and workshop conducted on the 12/13 September at the Vineyard Public School and the HMAS Field was very successful. Feedback from the participants was extremely encouraging. The standards of responses to the written exam is once again very high which also shows that we are getting the message across.

We have marked and assessed the written exams that have been submitted and there will be more over the next few months.

I am in negotiation with the Wagga Club to hold another course and workshop later this year (possibly late November). I strongly suggest that if your club is in the southern half of the state then you contact us for details as they are negotiated.

Once again I would like to thank all those that worked to provide the weekend, without their assistance we would not be able to provide services such as these to our members.

Secretary and CASA Liaison Tim Nolan

While I have been away I experienced some email issues that I could not resolve from overseas. If you have sent items in and I have not responded or listed them could you please resend them and I will attend to them at the first opportunity.

Newsletter Editor Rob Masters

The next newsletter is progressing well but as usual I would always like more photos and articles.

Other reports:

Bob Carpenter and Jackie Slaviero provided a report on the very successful day of FPV racing hosted by HMAS at their Vineyard field. A separate report will be provided for the newsletter.

Motion that the reports be accepted.

Moved: RAAFMAC **Seconded:** Parramatta **Carried**

General Business:

The first item of General Business is:

The next Business Meeting of Aeromodellers NSW will be held in the Board Room of DOOLEYS Waterview Club, Silverwater commencing at 8pm on Friday 13 November 2015, all members and visitors are welcome.

Discussion was held on the Cootamundra field, its ownership and the location of the title deeds. The President informed the meeting that the property is freehold owned by Aeromodellers NSW Inc, but that the Title Deeds are currently held by the same solicitors as the MAAA properties. The meeting discussed and agreed that under the current situation the Title Deeds should be held by ANSW.

Motion: That the land deeds and documents currently held at MatthewsFolbigg - Lawyers in Parramatta for the Aeromodellers NSW Cootamundra property and currently held by MAAA be returned to the Aeromodellers NSW Public Officer.

Moved: UMAC **Seconded:** Cronulla **Carried**

Discussion was held on the move by MAAA to expel Aeromodellers NSW (See Business Arising from Correspondence M1.5 above) and that our Constitution currently has clauses that state ANSW will be part of MAAA. It was felt by the meeting that we should review the Constitution with a view to removing any wording that would **prevent Aeromodellers NSW from moving in any direction** as may be required under the current circumstances. The meeting discussed the appropriate method for changing the Constitution.

Any changes to the Constitution must be agreed by 75% of those Clubs entitled to vote at an Extraordinary Management Committee Meeting that must be called specifically to deal with the motions.

At an Extraordinary Management Committee Meeting convened for that purpose, of which not less than four weeks written notice, setting out in full the proposed alteration, repeal or addition together with a proxy voting form, shall be given to the Secretary of each of the Association's Affiliated Clubs who are entitled to vote and to all Executive Officers of the Association, or

Motion: That the ANSW Executive be empowered to review the current constitution and that all references to being part of MAAA be removed. This motion to be passed and the constitution and detailed changes be reviewed at the November monthly meeting. Following review and approval this document will be provided to all member clubs and an Extraordinary Management Committee Meeting be called in December to ratify any changes.

Moved: Parramatta **Seconded:** SSME **Carried**

There being no further business before the meeting, the meeting was declared closed at: 9:10pm

Aeromodellers NSW 2015/16 Calendar

Evening at Shuswap Lake located in British Columbia, Canada – see more on page 10

Club News & General Interest

Kingfishers in Canada for Sushwap Lake

Aeromodellers 2015 Fall Float Fly

Aranka Nolan (ROW)

A flock of Kingfishers have now migrated to Canada and have joined the international fleet of Anderson Kingfishers.

A long held dream of Tim Nolan's was to build a presence at this Canadian event that brings Aeromodellers from all over Canada and America to participate in this week long event held at Sushwap Lake in British Columbia. Sushwap Lake is 4.5 hours drive East of Vancouver in the Rocky Mountains. The lake is also famous as one of the largest salmon spawning areas in Canada.

All visitors, the Australian team in particular, were made to feel very welcome at dinner activities and the social side of the event where the Australian flag was flown between the Canadian and American flags in the main tent.

With the help of many, two very large boxes were shipped by sea to Canada and despite some US

customs issues both boxes arrived in perfect condition.

Three ready to fly aircraft and five kits were unpacked and were eagerly received by their new owners, keen to start their winter building projects. The kits have been most valued with some people driving 7 and 8 hours to come and collect theirs.

It was great to see a strong Australian contingent at the event including Graeme Hutchinson, Ken Anderson, Peter and Felix Nieuwenhuizen and Tim Nolan, all flying well in what were picture perfect, crystal clear postcard conditions.

Needless to say Tim and the team won greatest distance travelled for the event. On the beach at one point there was one 1/3 scale (144 inches),

four 1/4 scale (104 inches) and two 1/5 scale (81 inches) lined up along the foreshore. Later in the day there was a fly past of six Kingfishers flying in the circuit.

A pretty good effort from the small workshop where they all originated.

All flew well at this event and we are pleased to say all aircraft are now safely in their hangers as winter descends upon Canada.

FPV Racing at HMAS

Bob Carpenter

Aeromodellers NSW and SYDFPV partnered to conduct Sydney FPV Round 3.

A few weeks back Tim Rochfort (HMAS) and Peter Daniel (SYDFPV) met at Round 2 of Sydney FPV Racing. It was that meeting that sparked the idea of holding the next round of racing at the HMAS field at Vineyard.

Tim said, “Yeah, I knew there would be a lot of planning to do – as this was a ground breaking idea – to welcome them to our field and make the day a success. It is all about respecting each other and our love of flying.”

With positive attitudes Aeromodellers NSW, HMAS and SYDFPV just took steps one at a time – to address issues as they came up - culminating in a very positive, vibrant and successful day. All too soon the 4th of October arrived. Race day was here.

People registered for their races, practice sessions were held. Spotters were in place and many spectators turned up. Friends and family. You could feel the excitement in the air and the camaraderie was evident.

New friendships were formed, friendly rivalry was there but the general tone was one of mateship. Conversations ranged from general chit chat to discussions around 3D printing or the latest advances in technology. Sharing of spare parts and helping with repairs with lots of ‘expert advice’ being given – whether required or not.

The sausage sandwiches and cold drinks were available – and as it was such a hot, windy day – highly appreciated by all.

Here are some comments made on the Western Sydney FPV Facebook page after the event (everyone was too busy flying to bother with social media)!

'Massive shout out to HMAS/Vineyard Model Flying Club, that venue was excellent, so many awesome tracks could be made there! And how good was it to hear Bob's speech at the start, awesome stuff!

Big shout out to Peter Daniel for all your work behind the scene! Phil Burnham for putting his life in danger to get the shots and Tim Rochfort who no doubt was instrumental in getting us in there, and I'm sure others I'm unaware of. You guys are why this sport is so God damn fun! (and what turns a bunch of mates park flying into a proper sport!)

'The Westies really know how to put a good race on. Well done, boys!'

'Big thanks to Bob and the Aeromodellers NSW crew for allowing us to pull this event off. The support we get from you guys is amazing and I can speak for everyone there today when I say we appreciate the support.'

https://youtu.be/y_3E6oi6JDQ

More photos and videos will be made available on the HMAS website and Aeromodellers NSW website and Facebook page.

You are also warmly invited to join the Western Sydney FPV Facebook page to keep up with and share stories about FPV flying and racing.

A letter from Peter Daniel

Posted a video online a few months ago. It was footage from the First Person View (FPV) Angle while I was flying my FPV Quadcopter. A guy named Tim Rochfort sent me a message and told me he loved the movie and that we should get together and fly sometime. I checked out Tim's videos and saw he was just like me; he had a healthy addiction called FPV. I met many people through social media that were local and involved in FPV around this time and something that used to be a sometimes pastime became my only hobby and it was amazing to have so many people to share it with.

Tim and I eventually met at the second round of racing organised by the SydneyFPV group. I had taken on an organisational role at this stage and although I was busy on the day, Tim and I still had the chance to get talking and pretty much instantly become mates. We spoke almost daily after that and just a short week later we had confirmed with Tim that HMAS would play host for the SydneyFPV group's round 3 of racing.

The planning and organisation took us the better part of a month but when race day came around, I was quietly confident that with HMAS helping us and the effort everyone had put in things would go off without a hitch.

I still felt a little jittering of nerves on the morning of the race. I mean, I was about to drag 40 FPV fanatics into a nice club and let them loose on the race track Tim had designed. These guys are comrades and best mates but when you put them on the race track - it's no friendships spared, prop to prop action racing. I could only hope that the Club members would enjoy hearing the friendly banter and race talk as the racers lined up to go for broke!

Before I knew it Heat 1 was run and won and the day was underway.

HMAS club members filled the seating down the side of the track, I couldn't believe so many of them had come out to watch us race. To my surprise they were even laughing and clapping as the racers ducked and weaved through the tight but quite fast course - perfect for spectating. As the races trudged back up the hill with big winning grins or their pride and joy in pieces, all the HMAS guys congratulated them with smiles of encouragement.

Everyone from SydneyFPV should be proud of themselves. They were all on their best behaviour and everyone was very cautious to follow [all](#) of the Aeromodellers NSW rules and requirements. This hopefully showed HMAS and other members of the aeromodelling community that we are serious about what we do but have the utmost respect for those that came before us and paved the way for us to be able to participate in this amazing new sport.

To say the day was a total success would be an understatement, the whole day really did go off without any problems while everyone still enjoyed themselves. To me, this is what perfect days are made of. Setting out on this journey I can't imagine that every challenge will be met with such success but with a wonderful people like those that are members at HMAS welcoming us in to the community and a great bunch of guys ready to do what it takes to give their sport some legitimacy, we are already leaps and bounds ahead of the rest.

Many thanks to everyone that is a member at HMAS. Your welcoming nature and beautiful facilities really made the third round of racing the best one yet and I'm sure an event everyone will one day look back at as the beginning of something truly special.

WANTED

Aeromodellers NSW is about to launch an exciting NEW education program for all clubs. We have some generous sponsors but we also need YOUR help.

- Do you have a trainer lying around collecting dust?
- Do you have a transmitter that is not being used?
- Do you have an engine or motor that could be used for a trainer?
- If you have any of this type of equipment that you no longer need and are willing to donate it you will be supporting an exciting and inspirational new program that will grow our sport in schools.

Please contact me if you can help.

Bob Carpenter
President, Aeromodellers NSW Inc

Aeromodellers NSW to Visit Wagga in Support of Youth Leadership in Aeromodelling

Following a discussion with Dave Roberts and Wayne Girdlestone from the Wagga Club during the recent MAAA Instructors Course presented by Bob Carpenter and George Atkinson, the Executive of Aeromodellers NSW has accepted an invitation to visit members of the Wagga Club and its surrounds.

One of the main aims of the trip is to support our youth leadership in Aeromodelling in NSW. Kyle Hughes is a shining example of this. So, from the 19th to 22nd November, Bob Carpenter and members of Aeromodellers NSW will be road tripping to Wagga.

The new education program will kick off with official visits involving Air Cadets and selected schools in the local area. If you want your school involved in this inspirational program, contact Kyle Hughes through Dave or Wayne at the Wagga Club. There will also be presentations covering opportunities to register for a tour to Space Camp USA.

There will be plenty of time to socialise, fly and chat over the 4 days. Dinner on Friday and Saturday night will provide a chance for discussion and the clarification of issues relating to 2016 and beyond.

Interested? Want to know more?

FUEL SUPPLIED ON RACE DAY

NSWPF

Just an average group of flyers with an obsession for precision aerobatics

NSW Pattern Flyers will be holding a two day event at RAAF MAC Richmond Saturday 21/22 November 2015

This is the last contest for 2015, and is the **NSW State championship** event for 2015. So do not miss out as the venue is one of the best in NSW.

Newcomers are most welcome, if you can loop, roll, fly inverted and perform a spin you can fly the Sportsman Schedule. As always there are plenty of experienced flyers there to lend a hand and offer advice. So come and join in the fun, or just come along and watch some precision flying at its best.

The Sportsman Schedule is on our site www.nswpattern.org.au under the Schedules tab

Please pre-enter by **Wednesday 18th November**, by following the link on our website www.nswpattern.org.au or email entry@nswpattern.org.au.

For more information contact Felix Nieuwenhuizen, on 0428 880 633, or at felchem@bigpond.com

View of flight line at recent APA championships At Twin Cities MAC

Picton Cup Round 2 F5J Electric Glider Event

At the Appin Club field on 29 Nov 15
commencing at 9:30am

Hosted jointly by the Appin Club and the AEFA.

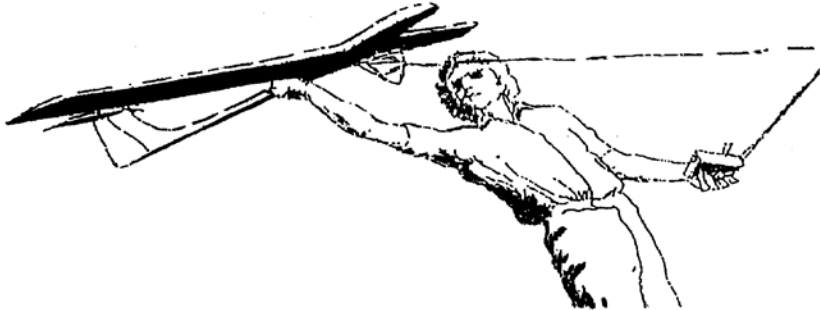

F5J is a low-key thermal event and data loggers are available for loan - just bring along an electric glider of 4m wingspan or less.

Awards will be made for Open and Limited F5J - the Limited is for aircraft of 2.5m wingspan or less, so it is not all left to the big boys! Full F5J rules can be viewed on the AEFA web site at www.aefanet.com

Breakfast will be available at the field (bacon and egg rolls) from 8:30am and a BBQ lunch also will be provided by the Appin Club.

Enquiries: Peter Pine

The poster features a central illustration of a smiling pilot in a blue flight suit and brown leather helmet with goggles, giving a thumbs-up. The background is yellow with a blue and black diagonal stripe. Logos for the Flying Scale Aircraft Association and RCSB are in the top corners. Text in the center provides event details, and a website link is at the bottom. The slogan 'WINGS FOR VICTORY' is at the bottom in large yellow letters.
